

Journal on Advances in Electronics and Telecommunications
Preliminary call for papers for a special issue on
**“Multimedia Telecommunications Series:
Recent Advances in Image and Video
Communications”**

Issue editor: Marek Domański

ADVANCES in Electronics and Telecommunications is a new peer-reviewed journal published at Poznań University of Technology, Faculty of Electronics and Telecommunications. It publishes scientific papers addressing crucial issues in the area of contemporary electronics and telecommunications. Detailed information about the journal can be found at: www.advances.et.put.poznan.pl

The aim of this special issue is to provide an overview of the recent advances and the state-of-the-art of image and video telecommunications. The topics of interest include, but are not limited to:

- new image and video compression techniques,
- image and video encoder/decoder implementations,
- video streaming, scalable video transmission,
- networked video services,
- 3D video,
- image and video watermarking,
- error concealment in image and video,
- image and video enhancement and restoration,
- UHD TV technology,
- international standards in image and video communications,
- image printing and video displaying,
- image and video quality assessment,
- image and video content retrieval.

Prospective authors are invited to submit their contributions electronically to: advances@et.put.poznan.pl. Authors should indicate that their submission is intended for this special issue. The authors are asked to submit their papers in English in accordance with the IEEE Transactions style defined at the website: IEEE Transactions style. Please note that submission will be treated as a declaration that the manuscript contains original material.

Important deadlines:

- Manuscript submission: December 20, 2010
- Acceptance notification: April 10, 2010
- Final manuscript due: May 1, 2010
- Publication: July, 2011

Final call for papers will be published on advances@et.put.poznan.pl in September 2010.
